

27-112-XJ

The 24-90-XJ is similar in appearance.

12 VOLT - SERIES 3000 - Types 24-90-XJ and 27-112-XJ for small craft. Available 90 to 112 A.H. Smooth top construction. New high capacity special positive plate assembly.

T-12-136

The 30H-108 is similar in appearance.

12 VOLT - SERIES 3000 - Deep Cycle - Types 30H-108 and T-12-136 smooth top, hard rubber construction with built-in carrying handle. 108 to 136 A.H.

T-12-140

12 VOLT - SERIES 4000 - Deep cycle - type T-12-140. Full Rezistox Positive Plates. 6 3/8" high, .140" thickness, 140 A.H.

T-12-250

12 VOLT - SERIES 4000 - Deep cycle - Full Rezistox Positive Plates. 10" high, .170" thickness, 250 A.H. Designed for applications where height is available but surface area is limited. The new case design allows for larger plates which result in greater power and capacity.

THE 8D GROUP

12-EHG-375 375 Amp. Hr. 8D

The 12HHG-375 (8D) is a modular construction and can be disassembled and reassembled for installation using ordinary tools. All are supplied standard with Hydrocaps. **Low Maintenance** Maintenance is reduced to annual watering on Rolls Batteries with Hydrocaps.

12-HHG-325 325 Amp. Hr. 8D

The 12HHG-325 (8D) is a modular construction and can be disassembled and reassembled for installation using ordinary tools. All are supplied standard with Hydrocaps. **Low Maintenance** Maintenance is reduced to annual watering on Rolls Batteries with Hydrocaps.

12-HHG-8D 275 Amp. Hr. 8D

The HT-8D is similar in appearance.

12 VOLT - SERIES 4000 - Deep cycle - Revolutionary design featuring a non-breakable container, flip-top vent covers. The ultimate choice in series 4000 deep cycle construction.

HT-8D 221 Amp. Hr. 8D

12 VOLT - SERIES 4000 - Deep cycle - Revolutionary design featuring a non-breakable container, flip-top vent covers. The ultimate choice in series 4000 deep cycle construction.

THE 4D GROUP

12EHG-210 210 Amp. Hr. 4D

210 AH (Tall 4D) Modular.
Standard with Hydrocaps.

Low Maintenance

Maintenance is reduced to annual watering on
Rolls Batteries with Hydrocaps.

12HHG-185 185 Amp. Hr. 4D

Standard 4D dimensions with Modular
Construction without Hydrocaps.

Modular Construction

The 12EHG-210 (4D), 12HHG-185 (4D), 12MD-325M and 12MD-375M are Modular Construction and can be disassembled and reassembled for installation using ordinary tools. No battery box required.

Modular Construction Replacement for Group 27

Same size as 2 Group 27 batteries in their boxes. Offers up to 4 times the capacity of 2 Group 27 batteries. Modular construction and comes in an approved battery box with lid. Hydrocaps standard for one year watering cycle.

12MD-375M 375 Amp. Hr.

12MD-325M 325 Amp. Hr.

EIGH-225

6 VOLT - COMPACT SERIES 4000 - Deep cycle - Full Rezistox Positive Plates. EIGH 7 3/4" high, 0.170" thickness, 225 A.H. The compact design allows for much more power producing active material than ever before possible.

EIGH 262

The NS-305 & CH-375 are similar in appearance.
6 VOLT - COMPACT SERIES 4000 - Deep cycle - types NS-305M and CH-375M full Rezistox Positive Plates. NS-305 3/4" high, and CH 375 10 3/4" high. Both 0.150" thickness, 305 -375 A.H. The new lightweight case design allows for larger plates which result in greater power and capacity.

6CS-25P

The 12CS-11P, 12CS-15P, 6NS-33P, 6CH-33P are similar in appearance. - **6 VOLT SERIES 5000** Deep cycle - dual container - non-breakable - bolt-together cells - 625 - 820 A.H. (6 volt) 342 - 370 A.H. (12 volt).

8-HHG-21P

The 8-HHG-21, 8HHG-25, 8-HHG-29 and 8HHG-31P are similar in appearance. **8 VOLT - SERIES 4000** - Deep cycle - Full Resistox Plates 5 1/2" high, 0.150" thickness equals the anticipated life of a conventional plate 1/4" thick and has 1/3 greater capacity. 119 - 423A.H

8-NS-23P

The 8-CH-23P, 8-NS-33P, 8-CH33P are similar in appearance. **8 VOLT - SERIES 5000** - Deep Cycle - dual container - non-breakable - bolt-together cells - Premium construction with multi-plate design. The most powerful and highest capacity heavy duty batteries available. 430 - 846 A.H.

4 KS 21P

4 VOLT - SERIES 5000

The 4CS-17 and 4CS-25 are similar in appearance.

Expected life of 15 years and a 10 year warranty. Deep cycle - dual container - non-breakable - bolt-together cells

2KS-33PM

2 VOLT - SERIES 5000

The 2KS-33PM is a 2 Volt Battery. Use 6 for a 12 Volt System.

Expected life of 15 years and a 10 year warranty. Deep cycle - dual container - non-breakable. 1,766 Amp Hrs.
